

Dear Valued Customer,

We are writing to inform you of an upcoming rate adjustment that will be effective for bills due July 10th, 2026. Please see the attached rate chart.

Much of our water system infrastructure is aging and requires ongoing maintenance and repair. In recent years, we have experienced increasing water loss due to leaks within the system. Addressing these issues is critical to ensuring reliable service, protecting water resources, and maintaining the integrity of our system.

This rate adjustment will allow the district to make the necessary upgrades and repairs to the existing infrastructure, reduce the water loss, and improve the overall system efficiency. It will also position the district to meet future demands and support responsible growth within our service area.

We understand that any increase in rates is significant, and we remain committed to managing costs responsibly while continuing to provide safe, dependable water service to our customers.

If you have any questions, please contact our office at 940-769-4594.

Thank you for your understanding and continued support.
